Description of Area Horse will be living (shelter, exercise space, etc): _____

NOTE: AAM does NOT adopt our equines to homes where they will be stalled with only limited turnout.

ALL of our equines have been rescued from situations where humans have let them down in some form or another, including capturing by BLM and removing them from the only home and family they have ever known. We spend a GREAT deal of time allowing each equine in our care to recover from trauma, and to learn to enjoy "being a Horse". A huge part of this enjoyment is being allowed to roam, graze, play or just relax in a comfortable environment. We understand that not all potential adopters can provide this. Please understand that if you cannot, your application will be denied. If an adopter provides false information in regards to the living situation of the equine, the equine will be immediately picked up by and returned to AAM, forfeiting any adoption fees.
